

#1A

TECHNICAL DATA SHEET

Description: *HYDRO-CHEM SYSTEMS' #1A is the original non-hydrofluoric acid first step product for two-step wash vehicle washing. #1A is a less aggressive than #1, but will still clean aluminum and is safe on glass. #1A is a phosphoric acid blend.*

Advantages:

- Moderately aggressive step one in two-step wash process.
- Cleans and whitens aluminum.
- Safe on painted surfaces and glass.
- Helps eliminate brushing.
- 100% biodegradable.

Specifications:

Physical Form:	Blue colored liquid
Odor:	Moderate acidic aroma
Solubility:	Complete in water
Foam:	Moderate

Directions:

Apply with either pressure washer or automated systems. Use at dilution rate of 25:1 to 100-1, depending on concentration of #1A entering two-step wash equipment.

Caution:

Contains phosphoric acid. Not to be used on polished aluminum. Follow safety guidelines found on MSDS.

If accidentally splashed in eyes, wash with water for 15 minutes and get prompt medical attention. Wash with water to remove from skin. Get prompt medical attention.
