

SCALE REMOVER

TECHNICAL DATA SHEET

Description: *HYDRO-CHEM'S SCALE REMOVER is a low pH Organic Salt that is used to replace traditional mineral and organic acids. Four to ten times more effective than citric and glycolic acid and two to three times more effective than phosphoric acid when dissolving calcium carbonate. 71% the strength of hydrochloric acid when dissolving calcium carbonate. Can be used in various applications, concrete floors, concrete trucks & equipment, tile and grout cleaner, acid presoaks, bay wall cleaners, boat hull, food and dairy cleaner.*

Advantages:

- Performance & cost advantages vs acids.
- Non regulated in DOT classification
- Non-fuming.
- No solubility limits (perfect fit in concentrated cleaners).
- Classified as a mild skin irritant.
- Replaces multiple acid blends.
- Phosphate free and contains no VOCs.
- Low contributor to BOD/COD in effluents.

Specifications:

Physical Form:	colored liquid
Odor:	Pleasant
Solubility:	Complete in water
Foam:	Medium

Directions:

Scale Remove can be used straight or it can be diluted with water. User needs to determine how much to dilute Scale Remover depending on what project they are doing

Caution:

If chemical is accidentally splashed in eyes, wash with water 15 minutes and get prompt medical attention. Wash with water to remove from skin.
