

#1 CITRIC PRE-SOAK

TECHNICAL DATA SHEET

Description: *HYDRO-CHEM'S #1 CITRIC PRE-SOAK is a low pH pre-soak to be used as Step 1 in a two-step wash program. #1 CITRIC PRE-SOAK helps break the bond of road film and is safe on polished aluminum.*

Advantages:

- Safe on polished aluminum when used at proper dilution.
- Excellent Pre-Soak on most vehicles.
- Use with warm or cold water. Can be used on aluminum and printed surfaces.
- Helps eliminate brushing.
- 100% Biodegradable.

Specifications:

Physical Form:	Orange colored liquid
Odor:	Citrus
Solubility:	Completely in water
Foam:	Medium

Directions:

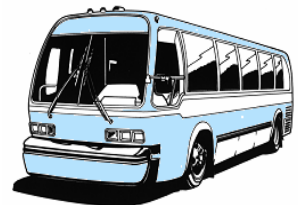

Apply through automated wash systems and hand-held pressure washers at a dilution rate of 50:1 – 100:1.

AVAILABLE IN VARIOUS
CONCENTRATIONS.

Caution:

As with all detergents, the user should test the product in an inconspicuous location on the vehicle to insure no adverse reaction occurs. This is especially important on polished aluminum.
