

#1 FLEET PREP

TECHNICAL DATA SHEET

Description: *HYDRO-CHEM'S #1 FLEET PREP is an aggressive blend of hydrofluoric and sulfuric acid to be used as the first step in the two--step wash process. It helps whiten and brighten aluminum rails and tanks as well as working with the second step products to remove road film.*

Advantages:

- Aggressive step one in two step wash process.
- Brightens and whitens aluminum.
- Safe on painted surfaces.
- Helps eliminate brushing.
- 100% Biodegradable.

Specifications:

Physical Form	Green colored liquid
Odor:	Acrid acidic aroma
Solubility:	Complete in water
Foam:	Moderate

Directions:

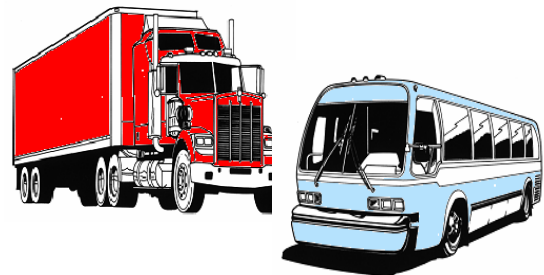

Apply only with proper two-step equipment either pressure washer or automated systems. Use at dilution rate of 25:1 to 100:1 depending on concentration of #1 entering two-step wash equipment.

Caution:

Contains hydrofluoric acid and sulphuric acid. NOT TO BE used on polished aluminum. DO NOT allow to dry on glass. Follow safety guidelines found on MSDS.

If accidentally splashed in eyes, wash with water for 15 minutes and get immediate medical attention.
